collection

Our desire to strive for the ideal world, is a never ending story. We continue to search for more, for better, to bring you the best... because you deserve it!

With the Silky collection, in addition to the goals already achieved, we have focused on softness. Our search has brought us to the "chenille" yarn. This type of yarn owes its name to its shape. It takes the shape of caterpillars such as the Pine processionary. Chenille is the French name for caterpillar.

Many months it took us to develop the perfect indoor/outdoor chenille with success.

To highlight this noble yarn even more, we have also chosen to finish the seats with a sophisticated edging.

Come with us and enjoy this journey through our catalog that takes us from our home over the mountains to sunny beaches. My home is where my Roolf-Living is.

1. corner
seat

Are you a person who likes to cocoon, who likes to gather people around the table? We have thought about you by implementing the corner seats into the Silky collection. The **corner seat** can give your setting a real extra added value. The possibilities and **configurations** are becoming infinite with the corner seat. By adding some of the corner seats to your single seats, you instantly create an overwhelming setting where everyone can be welcome. Discuss the possibilities with your distributor. You will be amazed at the outcomes.

Sea, sun and... our Silky **long chair**. Enjoy a day of sun ! We especially have developed the Silky collection to be large enough so you can wriggle yourself in any position you want without having the feeling you are limited because of your long chair. Nothing more annoying than to have the feeling that your long chair is too narrow or too short. Everyone enjoys a kingsize bed, so why not enjoying a king size long chair. And what about style, we do feel that the long chair has to be a part of the **total concept**. The **detailed finishing** of all of our models do make this collection a total concept where it is perfectly possible to **create your own configuration...** including the long chair.

the silky protector

Wintering outside?

The Silky Collection from Roolf Living is made of 100% polyester and is perfect for outdoor use.

If you not only want to keep your garden furniture clean but also extend its lifespan, use our Silky protector. It offers simple but effective protection against wind and weather so that your garden furniture continues to shine year after year. You can use it for overwintering, but comes also in handy during our changeable in-between seasons.

A protective cover... so many advantages

- Extends the service life
- Protects against weather conditions
- Protects against dirt & moisture
- Protects against mold & fungus

The protectors are available for these Silky models:

- The Corner Seat
- The Club Seat
- The Single Seat
- The Long Chair
- The Square Pouf
- The Round Pouf

A good protective cover should protect but at the same time prevent suffocation, otherwise your furniture will go mouldy. The protector has a water-repellent outer layer and a breathable inner layer.

The protective cover is custom-made and completely encloses your Silky. It can be closed with simple velcro fasteners and a zip at the back. The grip at the top makes lifting very easy.
